Summer Complaint.

Semmer Complaint.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhees. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Golic, Cholora and Diarrheea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do.—John Hertzler, Bethel, Berks Co., Pa.

Chief Consul Jason C. Stamp, of the West Virginia division, League of American Wheelmen, who has charge of one section of the great Washington City-Denver relay bicycle race, which will start from the former city at noon on August 6, with a message from President Cleveland to some personage in the western metropolis, Denver, has completed the arrangements for his section and announces the relays as follows:

This will be the longest relay or any other kind of speed contest ever attempted in this country and is called the demonstrate the practicability of the bicycle on American roads. It is tempted in this country and is calcultated to demonstrate the practicability of the bicycle on American roads. It is being managed by the Illinois division of the L. A. W., with Vice Consul Arthur Black as chief relayist. The schedule time for the riders to reach Wheeling is 4:25 p. m. Tuesday, August 7, but if the roads in the mountains to the east are in fair condition Riheldsfer will reach Ninth street earlier than that time. A change of relays will be made on Main street just above Tenth, and no doubt an immense crowd will be on hand to witness the first of the big relays that over passed through Wheeling. The only taste Wheeling people have had of relay racing was the Pittsburgh-Wheeling race run under the auspices of the INTELLIONICER last September. The route into the city will be over the national pike via Falton hill to Ninth and Maia streets. There the change in relays will be made and "Jack" Laue will carry the packet over the pitces through Bridgeport and out the pike.

Has a New Racer.

Oscar Smith, one of Wheeling's old racing men, will re-enter the arona this season. He has purchased a sixteen-pound Munger racer and has determined to enter several of the events at the Steubenville meet, July 31 and Angust 1. His many local admirors hope for and believe in his success, Other local men who will contest are John L. Kinghorn, J. W. Wood and Frank Wheat.

Yesterday morning the school of methods considered "Temperance Education for the Young," and Mrs. Morrow, of Fairmont, read an able paper on this subject, after which the ques-

on this subject, after which the questions box was opened and many questions growing out of this work were asked and answered.

It was agreed that next to the evangelical work of the W. C. T. U. the work of teaching the young the principles of the ground work on which the temperance movement rests—total abstinence for the individual—was the most important. Not only should this be done in the Loyal Temperance Legion, but in the Loyal Temperance Legion, but in the home, the Sabbath school and the public school; and the members of the W. C. T. U. should interest the teacher in the public schools in this work, and see to it that the law providing for instruction in the public schools in regard to alcohol and narcotics be rigidly enforced.

A special lecture in the Assembly course was given last evening by Col. George W. Bain, of Kentucky, on "Down Among the Masses, or Traits of Character." In spite of the rain a good audience gathered and seemed to be thoroughly pleased. Prof. Hawkes, of Baltimore, and the Silver Lake Quartete opened the services and were received with loud applause. Col. Bain spoke for over an hour to a delighted nudience, that applauded again and again. The lecture was greeted at its close with deafening applause, and with the shaking of hands and hurried good byes the Assembly of '94 became a thing of the past.

Milk Pails is Pearline. That's the solid truth. You get them cleaner, and with less work and fuss, than with anything else you can use. It saves you so much that it's cheaper than the commonest stuff can be. Proof—the largest dairies and dealers use Pearline. Some women are afraid of Pearline. They think that where cleaning is made

so easy, there must be some harm to the thing washed. But Pearline can't hurt milk pails, anyway. And it can't hurt the finest lace or the softest hands, any more than it hurts milk pails.

OF THE WORLD

Is that they not only please the eye when you first receive them, but that they gain upon you and reveal new beauties with every glance.

Every one of these great pictures has given its author years of thought and labor. It is, in most cases, the supreme effort of his life, and is so recognized by the great public. It is, in itself, a great volume, showing in its details the artist's inmost and best feelings. It should be worth examining a hundred and a thousand times and should please you each time.
